

Showcase

There is the opportunity to develop choreographic skills through creating and performing work for the annual dance showcase.

In the last year, students from across the prep and senior schools have auditioned for a spot in the annual showcase of dance.

Over 50 students performed 17 different pieces. Creative dance, ballet, contemporary and street styles were all in evidence.

In addition to giving our children the science and math skills they need to compete in the new global context, we should also encourage the ability to think creatively that comes from a meaningful arts education.

The future belongs to young people with an education and the imagination to create.
